CUTTING EDGE ELEVATED STORAGE

*No Painting Cycles or  
Extended Downtimes*

*Most Cost Effective  
Elevated Storage*

*Fastest  
Construction and  
Lead Times*

*Aquastore Dealer  
Service and  
Support*

**ELEVATED STORAGE DOESN'T HAVE TO  
DRAIN YOUR MAINTENANCE BUDGET!**

For elevated storage, you want the most rapid construction, most advanced coatings, lowest maintenance and most cost pricing...look no further than Aquastore.

## BEST COATING

Aquastore® tanks feature exclusive glass-fused-to-steel coatings that protect against exposure to the elements and corrosion. Titanium dioxide in the coating adds durability to the interior water contact surfaces. Our proprietary Edgecoat II adhere to The Porcelain Enameling Institute's Technical Manual PEI-101

## FASTEST CONSTRUCTION

Tight completion deadlines that would be impossible with other forms of elevated tank construction become commonplace for the Aquastore® Elevated Water Tank. Commissioning will often be completed in half the time of conventional welded elevated tank fabrication. Bolted construction can proceed in adverse weather conditions that would make welding or field-painting impossible.

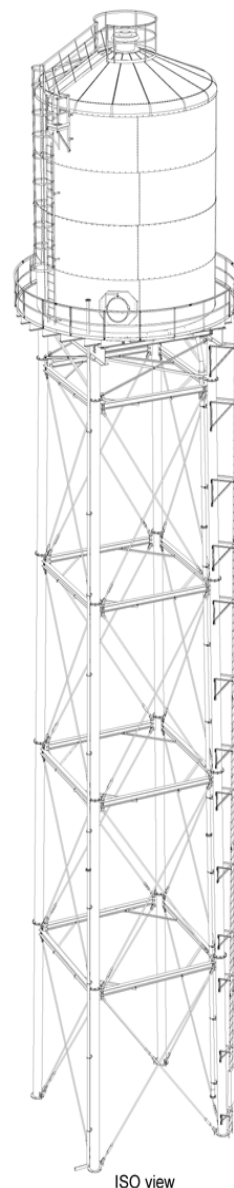

## THE BEST SERVICE AND SUPPORT

Your Independent, Authorized Aquastore® Dealer has full details on the Aquastore® Elevated Water Tank. Best of all, your dealer provides complete turnkey project responsibility from concept to commissioning.

## ECONOMICS AND SECURITY

The cost of an Aquastore® Elevated Water Tank is typically less than conventional elevated storage tank construction.

And an Aquastore® offers more savings; shorter commissioning time schedules, no repainting (unlike field-painted tanks), and low routine maintenance costs all add up to savings and the best price-to-performance product in the market. And is available with 5 or 10-year extended manufacturer's warranty. The support structures for the tanks and are designed and manufactured in accordance with applicable standards of AWWA & ASCE. Bolt-together factory galvanized sections allow for year-round rapid construction and eliminates painting cost.

## TYPICAL DIMENSIONS

Aquastore Elevated Water Tank Typical Dimensions		
Gallons	Tank Model (Diam. x Ht.)	Tower (Diam. x Ht.)
50,000	20 x 24	21 x 100
75,000	22 x 29	23 x 100
100,000	25 x 29	26 x 100
125,000	28 x 29	27 x 100
150,000	28 x 34	27 x 100
175,000	28 x 38	27 x 100
200,000	31 x 38	28 x 100
