

Water Tanks

Potable Water, Process Water, Fire Suppression Water,
Chlorine Contact, Demineralized Water, Ground Storage,
Standpipes, Composite-Elevated Tank Designs

The **MID** *Atlantic* difference

You deserve the best service and top quality products for your water storage needs. Consider these Mid Atlantic advantages...

Total Service

We define service as a comprehensive series of customer focused activities that include:

- Trained sales reps ask the right questions about your water storage needs.
- Detailed proposals with CAD drawings and technical specifications
- Complete submittal packages that simplify the approval process
- Warranty and periodic inspection programs

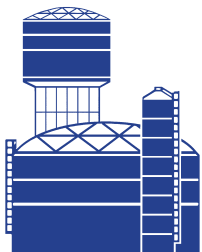

Complete Tank Construction

Our employee crews are factory trained and annually certified by the tank manufacturer.

- Turnkey supply and installation: sitework, piping, tank foundation, tank construction, staircases, internal baffles
- System start-up assistance and operator training
- Construction Management Responsibility
- Hydrostatic testing and disinfection

Top Quality Product Lines

- Aquastore® Tanks with state-of-the-art glass fused to steel coatings
- TecStore™ Tanks of epoxy-coated-steel, galvanized-steel or stainless steel
- Clear-span, aluminum dome roofs
